

Timesystem — Building seamless software solutions.

Time Systems International Services Limited · Lagos, Nigeria

Who we are

Time Systems International Services Limited is an IT firm specialising in software development, mobile, web and desktop applications, website design, professional training and IT consultancy. We build flexible software and integrations that help organisations solve real problems, reduce costs, and keep pace with the latest business trends.

Vision, Mission & Core Value

Vision	Provide flexible solutions using cutting-edge technologies that help organisations and individuals stay ahead of business trends.
Mission	Be the best, most effective and most accessible partner — increasing business value and propositions for every client we serve.
Core Value	Explore technology to its maximum. Deliver result-oriented outcomes that guarantee our customers' success.

What we do

Software Design	Custom software using .NET, Java, PHP, JavaScript, React, Laravel.
Web Development	High-performance websites, portals and web apps.
Mobile Apps	iOS & Android apps built native and cross-platform.
Creative & Branding	Product design, identity systems, marketing collateral.
Networking & CCTV	Enterprise networking, surveillance and security installs.
Trainings & Consultancy	Corporate bootcamps and ICT project consulting.
